OGC 62-2749(a)

i	MEMORANDUM FOR: Chief, TSD/LSS	
; ; :	ATTENTION:	25X1A
	SUBJECT: Possible Conflict of Interest of Contract Emplo	ye e
		25X1A
		- 1
	1. You have requested our opinion as to the possibility of a	
	conflict-of-interest situation arising from the following facts. Mr.	•
25X1A	a contract employee of the Agency, built 90 units	25X1A
05V4 A	of a device intended for pertinative defined.	20/11/P
25X1A	to some all ord her him.	25X1A
25X1A	Department is controlled by Mr maintains	25X1A
25X1A 25X1A	social contact. has no stock or other interest in the	25X1A
25X1A	and states that he built the units for	25X1A
	as a personal favor and will accept compensation for the work only	
25X1A	if the stration improves.	25X1A
	is also considering the perfection and manufacture for commercial	
1	use of a transistorized receiver.	
·	2. To answer your second question first, if TSD determines	
25X1A	that outside activities in the commercial electronics	
20/(1/)	field conflict in any way with his responsibilities with the Division	
	or are in any other way detrimental to the best interests of the	
	Agency, it is within the Division's administrative discretion to	
25X1A	require to cease such activities. To rule on the legality of outside activities requires the following additional	
25X1A	ity ofoutside activities requires the following additional information: With regard to the work for	25X1A
25V1^	would the work done by involve any liaison function with	20/1 <i>P</i>
25X1A	the Government and in particular with the Agency; are there any	
	security considerations, that is, is the technical know-how applied	
	to such work of a classified nature or of a nature known only to	
•	analysis of the Agency? If the answers to these questions are	

25X1A

25X1A

negative, this Office would find no actionable conflict of interest on ______ part in engaging in this activity and, therefore, would pose no legal objection to his continuing this work.

- J. With respect to the development of the transistorised receiver, the same considerations may be applied, that is, would ______ be using information obtainable only from his position in the Agency; would be be likely to be negotiating contracts with the Agency for such equipment; and would be be using Agency time for the perfection and/or manufacture of such equipment? Again, if the answers to these questions are negative, this Office would not object legally to his continuing such activity.
- 4. Generally speaking, in any case utilising specialised knowledge which may have been gained through employment with the Agency, extreme caution must be exercised by the administrative official in approving or disapproving the employee's request for pursuing such outside activity. The legal question becomes material only after administrative approval of the employee's intended activity.

Office of General Counsel
